Chaos releases Corona 11

Archviz artists, architects, and designers can now enjoy easier and faster scene creation and detailing with a powerful set of new tools.

KARLSRUHE, Germany — November 30, 2023 — Today, Chaos is releasing Corona 11 for 3ds Max and Cinema 4D, bringing users complete creative freedom and control with a powerful set of new tools that allow easier and faster scene creation and detail than ever before.

What's new

Powerful detailing of scenes

- **Easily create stunning bathrooms, kitchens, walls, and floors** with procedural tiles thanks to Corona Tile Map.
- **Easily apply effects like weathering and staining** to the edges of objects with Edge Map/Edge Shader.

New Scatter controls

- **Define upper and lower limits for scattering**, creating more realistic nature scenes with Scatter Altitude.
- **You can now have scattered items look in the same direction** quickly and easily using Scatter Look At.

Simulations

- **Add an extra layer of action to your scenes with smoke, fire, and other Pyro simulations** directly in Corona for Cinema 4D.

Improved workflow

- Corona 11 for 3ds Max comes with a set of handy scripts called **Corona Power Tools, designed to speed up and replace repetitive and tedious design adjustments.**

Other improvements

- **Improved Normal / Bump filtering** reduces the loss of detail in those channels that can come with using a smaller render resolution or moving an object further away from the camera.
- **With the new Intel Denoiser, you get improved results** and it can run on CPU or NVIDIA GPU.
- Users can now take advantage of the **color management options** offered by the latest versions of Cinema 4D and 3ds Max.
- **Improved Lister** in Corona for Cinema 4D.

About Chaos

Chaos is the world's largest 3D visualization company. For over 20 years, it has empowered architects, artists, and designers to transform their imaginations into captivating visualizations, bringing their creative visions to life. Chaos offers intuitive and powerful workflows for creatives across the entire design spectrum, including architecture, engineering, construction, product design, manufacturing, and media and entertainment.

In 2022, Chaos merged with Enscape and acquired Cylindo. From the initial design to the final deliverable, Enscape provides an integrated, real-time visualization workflow for the entire architectural design process. With a new bridge between Enscape and V-Ray, architects and specialists can finally collaborate on photorealistic visualizations at any part of their process.

Chaos has more than 700 employees and offices in Karlsruhe, Germany; New York, Los Angeles, Boston, USA; Sofia, Bulgaria; Copenhagen, Denmark; Bitola and Skopje, North Macedonia. For more information, visit chaos.com, enscape3d.com, and cylindo.com.
